FLOOR 3.14: TOWER GROVE SIDE QUEST

SYSTEM NOTIFICATION: NEW SIDE QUEST AVAILABLE!
QUEST: Tower Grove Park's Cheese Revolution
OBJECTIVE: Join NPC St. Louisan Toni Ravioli's fight against the Interstellar Provel Corporation by unlocking her cheese recipe.
REWARD: Game bonuses, plus you can tell your grandkids that you were part of the historic Cheese Revolution.

The Scoop

Sure, your team signed up to test the Floor 3.14 Dungeon from the Interstellar Provel Corporation's (IPC). That doesn't mean you have to love planet-destroying imperialism. Good thing you're about to meet Toni Ravioli, a Toasted Ravioli-shaped NPC with a big dream.

Toni means to overthrow the Corporation, free all Crawlers, and offer them worker-owner jobs in a new cheese factory she'll build right here in St. Louis. Her secret weapon, a delicious Provel alternative, is locked in a combination safe, and she's hidden fragments of the combination across the park. Collect them to prove you're worthy of joining the Cheese Revolution - you might even learn a little St. Louis history along the way.

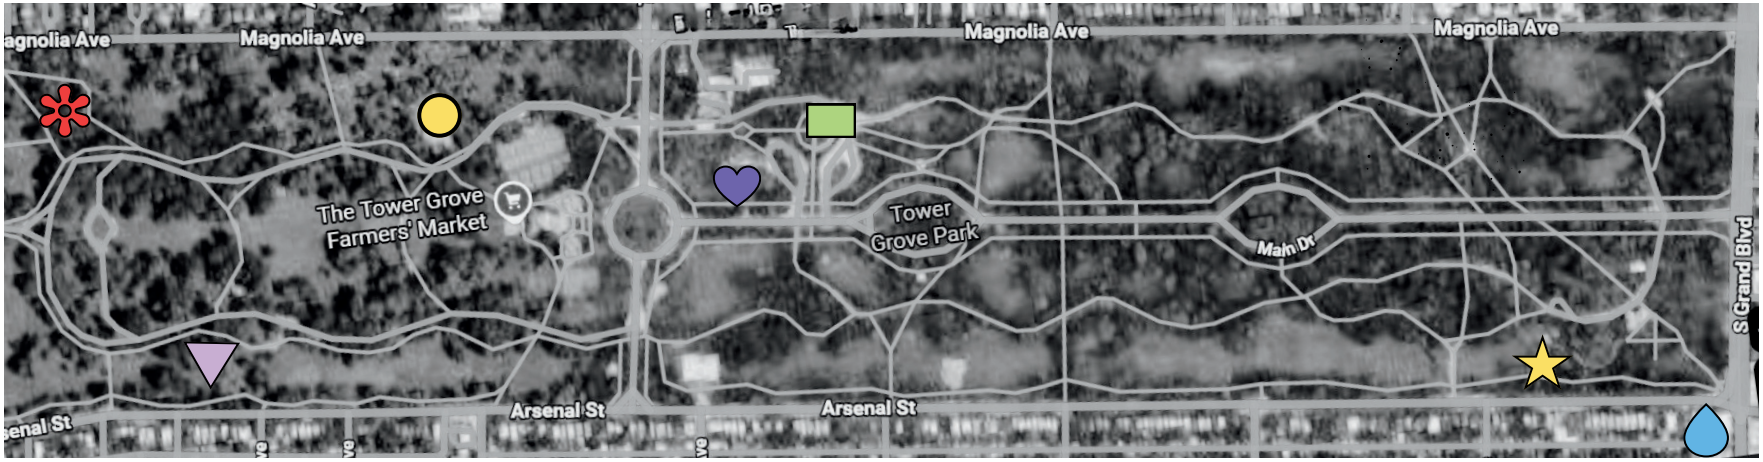

THE STAKES: Succeed and the Dungeon system will be abolished AND Crawlers will gain fair working conditions so they can read lots of LitRPG books in their abundant free time.

The Plan

1. This is a **self-directed Side Quest.** Scoring sheet is on the last page. Cheaters will meet the standard consequence of the IPC: death by drowning in a vat of Provel.
2. Teams can earn XP and stat points by answering individual location questions **(aka you're still rewarded if you don't finish)** and big-time bonuses if they correctly answer the final question: What is the safe combination?
3. Locations can be visited **in any order**. Visit the stops as a team, or break up and do it in pairs.
4. Some Crawlers will do this Side Quest in the morning before Party-building and the Dungeon. Scoring instructions are on the last page.
5. **Alliance Bonus Points: Bring a fun hot take about DCC** ("Bautista deserved better," "Bea was the greatest cat mom," etc.) Every time you meet another team, share your hot take (15 XP) and post a photo of both teams in the Crawler Feed (20 XP). Also, feel free to collaborate on your answers, or go it alone. You do you!

Good luck, Crawlers!

SIDE QUEST MAP & LOCATION QUESTIONS

★	**Revived Water** A stream was piped underground for over a century, until the park uncovered it in 2022. Its name, Nee Kee Nee, means "revived water" in the Osage language, and the Osage Nation helped design it. It closes in the winter months (sorry!) but in the summer months, a user-activated sensor starts the water flowing. • **Question:** How many large stones sit in the fountain? Spell it out.	__ __ __ __ __ 1 2 3 4 5
▼	**Crawler Vacation Memorial (Not a Tombstone)** Eliza Hoole visited her cousin Henry Shaw (founder of this park) from England, and apparently had a great time. To commemorate her visit, she planted an oak tree, and Shaw set a marker stone in front of it. The oak has since been replaced, but the stone is still here. It's often mistaken for a tombstone! (HINT: It's at 38.60585, -90.26523.) • **Question:** What is the last number in the year carved on the stone? Spell it out.	__ __ __ 6 7 8
■	**Unidentified Alien Brain Fruit: Do Not Eat** Six composers ring this bandstand, built in 1872 for Sunday afternoon concerts. One of them has been staring at something pretty cool: a huge, crooked Osage orange tree that drops lumpy green fruit resembling a brain from another planet. • **Question:** The composer bust that faces southwest looking at that tree - first name?	__ __ __ __ __ __ 9 10 11 12 13 14

	**Safe Room (optional)**: Crawlers may rest, recover, and restock here in this den of coffee and community. Toni arranged for a themed beverage be available for Crawler purchase. This Safe Room closes at 3 PM. • **Bonus opportunity:** 10 XP if you take an epic team pic (inside or outside) and post it in the Crawler Feed, and 20 XP if you support this small local business with a purchase.	**Free Space!**
	**Skyfowl Migration Corridor** The plants in this little bird woodland were chosen with migrating birds in mind, and the fountain gives them a place to drink and wash. Warblers, thrushes, and owls stop here as they travel along the Mississippi Flyway. • **Question:** According to the signs as you walk the Eastern edge of this log-lined path to this beautiful space, whose ethical guidelines (initials only) help keep the birds comfortable?	**__ __ __** **15 16 17**
	**Collapsed Floor: Stairwell Not Located** The Lindell Hotel stood at Sixth and Washington downtown, and it was the largest hotel in America. It burned to the ground TWICE- in 1867 and then again twenty years later. These pond-side ruins are from stones salvaged from the first fire. • **Question:** Somewhere in the ruins is a carved half-daisy shape. How many petals does it have?	**__ __ __ __** **18 19 20 21**
	**Good Llama House** These stables were built in 1870 to house the mules that did the park's heavy work. Today they're home to Moonshine, a Clydesdale, and Ricochet, a miniature horse (!) who came from a rescue ranch to keep him company. Find the hidden container in the multi-stemmed tree that sits on the east side of the building. HINT: If you can't find it, go to: 38.60831, -90.26092. • **Question:** What type of animal did you discover in the hidden container?* *(If you're doing doing the Sidequest on a different day than the Crawl, look up the answer on the website - link on last page.)	**__ __ __** **22 23 24**
